Dear Ms. De Luca,

Thank you for ensuring that the Nordic Adoption Council will be informed and maybe even consulted if and when the European Commission should consider initiatives concerning or touching on the issues of intercountry adoption.

We can ensure you that we shall try our very best to offer any kind of cooperation if needed.

At the Nordic Adoption Council we still and always are focusing on the Post Adoption Services so important for carrying out a modern intercountry adoption programme. Unfortunately, this need is far from recognised by many European governments including the five Nordic governments.

Also, we would like to attract your interest towards the so-called Nordic Adoption Approach which was decided upon as a joint Nordic statement at the Nordic Meeting in Helsinki, Finland a few years ago. I enclose it in three languages for your convenience.

Sincerely Yours
